

## Policy Analysis & Advice

### OBJECTIVES

At the interface between industry's needs and the priorities of the Japanese and European authorities, the EU-Japan Centre organises debates, informs about the latest industrial and economic policies, presents feedback to policy makers and compare experiences and latest information with a view to sharing best practices and identifying areas of future dialogue and cooperation.

The Centre's **seminars and workshops** both in Europe and Japan cover the following issues:

#### ENERGY - ENVIRONMENT - CLIMATE CHANGE

Potential of green industries and most appropriate regulatory environment to favour their development.

Main Topics include: emissions trading, carbon capture and storage, renewable energy, environmental goods, REACH, Green ICT, and CO<sub>2</sub> reduction in transport.

For example seminars on:

- «REACH: Developments in the EU and what they mean for the Japanese Industry»
- «EU Policy on Renewable Energy»
- «Climate change negotiations after Copenhagen - Now What?»
